## Environmental Policy

AXESS, a company that sells parts, parts and accessories of the automotive system, has the policy of complying with the requirements of the Cuban Standard ISO: 14001 and current environmental legislation. With a sustainable use of non-renewable resources and with a continuous improvement of performance, creating an awareness that deepens the actions of education, dissemination and environmental information. Draw a projection of science and technology in the solution of the main environmental problems and the development of a safe technological innovation, in addition to contributing to economic and social progress on sustainable bases.
